Saturday, 29 August 2015

9:30am - 11:00am Session 1

11:00am - 11:30am Morning Tea

11:30am - 1:00pm Session 2

1:00pm - 2:00pm Lunch

2:00pm - 4:00pm Session 3

Some people believe that you either have a gift for maths or you don't. "[but] the only real distinction to be made here is between those who were taught number badly and those whose teachers understood that mathematical ability is not a divine gift but grows (or not) as a result of a learning process". (John McLeish)

You are invited to discover how the mathematical mind is supported in the 3 to 6 prepared environment.

Delight in maths concepts that are engaging and wonderfully easy to understand!

Come to explore the child's journey towards abstraction as we review the maths area and follow the process of addition through the different materials.

Session 1 How the child's mathematical mind is supported in a prepared environment

Session 2 An overview of the 3 to 6 maths area

Session 3 Following the process of addition through all the groups of maths.

AMY KIRKHAM is the 3 to 6 Director of Training for the Australian Centre for Montessori Studies in Melbourne. She also has training responsibilities in China where she is a member of the AMI Faculty. When she is not with students on a course she enjoys working in the prepared environment with the children.
