Montessori For Dementia Two-Day Workshop – WA

CREATING MONTESSORI ENVIRONMENTS

Monday and Tuesday, 24 and 25 October 2016, 9:00am to 4:30pm

Montessori for Dementia – Two-Day Workshop

This two-day programme focuses on creating Montessori Environments, an innovative method of working with older adults living with cognitive and/or physical impairments. Research has provided clear evidence of increased levels of engagement in activities when Montessori environments are created and associated decreases in the behaviours of unmet needs when people are actively engaged in meaningful activity. Participants in this workshop will learn about the basic principles of Montessori Methods and be given practical “hands-on” opportunities to apply the techniques and consider how this philosophy of care can be adopted for their resident/clients and programmes. The first day of the programme focuses on the facts (knowledge) and the second day focuses on putting the concepts into practice for residents/clients, activities and environments. Learning Outcomes for the workshops are available by contacting Montessori Ageing Support Services.

Who Should Attend?

Any person who is interested in learning about new ways to deliver care and provide support to residents living with dementia are invited to attend. Montessori Methods can be implemented by a range of people including, nurses, support workers, physiotherapists, occupational therapists, speech therapists, paid carers, family members, volunteers and community support workers.

PERTH

Catholic Homes
123 Burswood Road, Burswood

Registrations Close – Friday, 14 October 2016

ANNE KELLY is a Montessorian Dementia Consultant who has worked extensively in dementia care both residential and community for the past 30 years. She is currently the Managing Director of Montessori Ageing Support Services and is considered an Australian leader in Montessori methods for ageing care. In 2009 she was awarded a Churchill Fellowship to study Montessori methods for Dementia Care which enabled her to work alongside world experts in this area including, Dr Cameron Camp, Professor Michelle Bourgeois and Gail Elliott, author of Montessori

Methods for Dementia, a textbook that uses examples of Anne’s work in Australia and for which Anne wrote a foreword. Since her return from overseas Anne has been sharing the magic of Montessori Methods for Dementia around the country. Workshop participants may receive International certification with International Montessori for Elders if they wish by successful completion of certification assessment tasks.
